

This half term we will be learning all about plants, growth, life on the farm and life cycles.

We will plant our own seeds and take care of them, helping them to grow.

On our visit to the farm we will be learning about animals and their young. Also the role of the farmer and what life is like on the farm.

When our living eggs arrive we will explore life cycles and also learn about different types of life cycles.

Summer 1: Circle of Life

Wow Moments

Planting seeds
Visit to Hall Farm Park
Living Eggs
